Government and  
Commercial Contracts

Make It Happen

# Make It Happen

## E-9 Enterprise Inc.

---

E-9 is a privately-owned S-Corporation, 8(a) firm, SBA Certified Service-Disabled Veteran-Owned Small Business, and a Minority Business Enterprise (MBE) providing defense contracting and support services worldwide. While immediately recognizable to those with military experience, our name, E-9, not only reflects the leadership team's role when in the armed services, but the company's absolute commitment to operating ethically and delivering exceptional performance in support of our clients mission and objectives.

# About Us

Our leadership are trusted advisors to the Military, the Department of Defense, the Federal Government and numerous Commercial clients. We deliver superior quality support to our clients through the thoughtful application of technology, delivering enduring innovative solutions, ensuring our client's mission success.

E-9 has a proven track record of exceptional performance of government and commercial contracts worldwide. E-9 is known for its precise contract execution, extraordinary value, on-time completion, targeted goal accomplishment, and standout customer service commitment. E-9 is comprised of Military Veterans and seasoned professionals from the public and private sectors, all committed to our customers continued mission success, by delivering superior quality and operating ethically at all times.

# Logistics & Acquisition

E-9 brings a deep mission understanding to every aspect of logistics, acquisition and material readiness. E-9 has provided supply chain support to numerous Government and private sector clients to include the Air Force, GSA and Kellogg's. Our suite of solutions and services include developing and maintaining logistics management information systems, predictive modeling, supply process reengineering, material acquisition and readiness management and support for supply chain engineering services. Our Logistics capabilities include:

- Business Process Improvement
- Acquisition Support
- Materials Readiness
- Supply Chain Support
- Logistics Business Information
- Technology Support
- Contract Support
- Audit and Improper Payment Analysis

# Engineering Services

E-9 provides technical leadership and subject matter expertise in a number of engineering services disciplines. Our disciplined technical experts provide on-schedule and within budget engineering services that yield the best overall value in support of your infrastructure project requirements.

E-9 is a preferred long-term engineering service partner to numerous clients including the US Air Force Academy, USNORTHCOM and Buckley Air Force base. Our quality system approach focuses on robust project management and internal reviews utilizing best in class methodologies.

E-9 combines our experts and processes with global best-value engineering options to provide high quality work at the best-value to our customer. E-9 specialists are ready and willing to discuss all your system engineering requirements and provide your integrated project team with numerous value added courses of action.

Our team includes experienced subject matter experts with proven capabilities in systems architecture engineering and requirements development ensuring all our projects are developed in the most agile of environments. Engineering Services include the following focus areas:

- Technical and Scientific Research
- Engineering Development
- Engineering and Advisory Services
- Business Requirements Elicitation
- Analysis of Alternates
- Integrated Systems Architecture Development
- War-Gaming and Exercise Support

# Information Technology

E-9 Information technology capabilities establishes a disciplined approach to IT project and program management starting with robust requirements development through project handover and maintenance.

Our proven approach ensures the customer, the IT project team, Integrated Project Team (IPT), and all stakeholders invested in an IT project focus on a single compelling mission – achieving on-time project delivery. E-9 utilizes a Project Management Prioritization System (PMPS) to constantly monitor your IT priorities allowing for agile course corrections, ensuring your mission objectives are met on time, on budget and deliver to the level of performance expected by the project team.

The E-9 PMPS uses incremental (rapid event) sprint product build techniques for IT projects with delivery of new functionality, tested and accepted by the customer, in cycles of two months or less. E-9 will closely monitor all of our customer's projects and review any scope changes or project deviations, ensuring all stakeholders' approval is received and project outcomes meet expected performance levels. Our IT capabilities include the following specialty area:

- Agile Project Management
- Data Center Management
- IT Infrastructure Support
- IT Governance Development
- Call Center Management
- IT Help Desk
- Business Operations
- Requirements Analysis
- Business Requirements Development
- Data Analytics

---

# ■ Base Installations

E-9 trusted advisors relieve base commanders of the administrative burden in a number of base installation focus areas including event management, facilities and building maintenance support and event security. E-9 is proud to support the United States Air Force Academy with all event planning and crowd and traffic management activities. Base Installation Support Services include, but are not limited to the following:

- Event Management and Administrative Support
- Facilities and Building Maintenance Support
- Security Personnel

## Human Capital Management

---

E-9 Human Capital Management (HCM) Solutions help organizations navigate the myriad of complex HR challenges including personnel identification, hiring, training, and retention of mission critical resources.

E-9 personnel will roll up our sleeves and get involved in the day to day HCM requirements in support of our clients, freeing up their key personnel to focus on their core mission requirements. Count on E-9 to bring all of the major components of HCM seamlessly together including – talent identification, talent management, human resources management, training, studies and analysis – and deliver them as a unified and integrated solution for organizations doing business in the U.S. and beyond. Our complete line of HCM services include:

- Personnel Services and Support
- Mission & Program Support Services
- Project Management
- Strategic Planning
- Administrative Staffing and Augmentation
- Hiring and Retention
- Studies and Analysis
- Training and Technical Support
- Temporary Personnel
- Translation Support Personnel

# Crisis Management

E-9 offers superior technical experience, tactical understanding of emergency crisis response, an unlimited wealth of knowledge in emergency management and disaster relief, a resilient work ethic and an unblemished focus on team concept and success.

E-9 provides emergency human capital management (role player support), emergency management and crisis training, technical emergency response training, crisis response exercise development, planning and execution, experienced program management, consultation of incident command systems, state of the art integrated CBRNE training equipment, armed security, VIP escort services, administrative and systems engineering, and IT technical aid.

E-9 subject matter experts are qualified, certified, military veterans with graduate level education in Chemical, Biological, Radiological, Nuclear and Explosion (CBRNE) awareness and response, agent detection and identification, consequence management operations, National Incident Management System (NIMS), multi-hazards incident commander, international and Federal Emergency Management Agency search and rescue marking system, mass casualties search and extrication procedures, technical rescue, structural and aircraft rescue firefighting, emergency medical care, emergency dispatching, decontamination procedures, fire officer roles and responsibilities, fire instructor, fire inspector, hazardous material awareness, operations and technician level response, incident safety officer, and law enforcement protection. E-9 is also proud to state that within our staff we have an adjunct professor for fire science technology program.

# Teaming & Partnering

E-9 is always looking to develop relationships with companies, small, medium and large, that exhibit similar values and ethics to our organization and complement and enhance our broad range of business technology services.

E-9 will always outperform on the contract/support teaming opportunities we lead or sub on, delivering outstanding customer satisfaction. E-9 is committed to ensuring all stakeholders in a teaming arrangement benefit and grow out of a relationship with our organization and that these relationships endure for many years to come.

Our commitment to teaming is led by our CEO Steve Martinez who understands the deep value a close teaming relationship brings, as it was through a teaming relationship that E-9 got its start.

For medium and large organizations, teaming with E-9 can provide your organization additional capabilities, skill sets, and methodologies, along with socio-economic advantages, that give you a significant competitive edge on contract bids and assist you with growing into new markets and customer sets.
